Field notes on the GEOMORPHOLOGY, HYDROLOGY and ARCHAEOLOGY Between CAPE AGULHAS and CAPE INFANTA

B. NATURE RESERVES

Field Note B1. Overview

There are several private and public nature reserves in the Study Area (Figure 1). The nature reserves are described briefly in the following Field Notes. The material, which is contained in the Field Notes about public nature reserves was taken from the nature reserves' publications and websites. Readers can find more information on the public nature reserves on the Internet. Very little information is publicly available on the private nature reserves.
