

N. DE HOOP VLEI GORGE

Field Note N9b. Archaeology - Ruins

Historical cottages around the gorge are located at the outlet of the Eselkloof and south of the outlet of Wasdam se Kloof (Figure 1).

Figure 1. Topography map of a section of the gorge. The ruins are indicated by arrows: red – Eselkamp ruins; black Wasdam ruins.

The Eselkamp ruins are located on a gently sloping terrace, on the south side of Eselkloof outlet (Figure 2).

Figure 2. Satellite images of the Eselkamp ruins (yellow arrow) at the outlet of Eselkloof (white arrow). Top – the vlei is full; bottom – the vlei is dry. Note the wall across the gorge south of the Eselkloof outlet, red arrow; see Field Note N9c.

The Eselkamp ruins are situated about 12 m above the vlei floor (Figures 3 and 4).

Figure 3. View to the south on the location of the Eselkamp ruins (arrow).

Figure 4. View to the north from the Eselkamp ruins. The wall across the gorge, north of the Eselkloof outlet, is clearly seen (arrow).

The Eselkamp ruins are hidden in thick vegetation (Figure 5).

Figure 5. Eselkamp ruins.

The Wasdam se Kloof ruins are located some 400 m south of the outlet of the Wasdam se Kloof (Figures 6 to 10).

Figure 6. Satellite images of the Wasdam se Kloof ruins (yellow arrows). Top – the vlei is full; bottom – the vlei is dry.
